

Pine Rockland Workshop February 2006

Pine Rockland Conference 2006: Program for Thursday, January 9th

8:30	9:00 Opening Remarks	Chris	Bergh
9:00	9:20 Biology and conservation status of <i>Eumaeus atala florida</i> (Lycaenidae:Theclinae: Lepidoptera) in South Florida Pinelands	Sandy	Koi
9:20	9:40 Effects of habitat fragmentation on pollinators of pine rockland endemic plants of south Florida	Suzanne	Koptur
9:40	10:00 Avian restoration in the pine rocklands of Everglades National Park: an update.	Gary	Slater
10:00	10:20 Panel Discussion		
10:20	10:40 BREAK (refreshments provided)		
10:40	11:00 Fuel loads, fire regimes and post-fire fuel dynamics in Florida Keys pine forests	Jay	Sah
11:00	11:20 Effects of winter and summer prescribed fires on pine rockland vegetation on Big Pine Key, Florida	Jim	Snyder
11:20	11:40 Distribution and population study of rare plants on Big Pine Key, Florida	Kieth	Bradley
11:40	12:00 Panel Discussion		
12:00	1:00 LUNCH (provided at FIU)		
1:00	1:20 Patterns of plant diversity in fragments of globally imperiled pine rockland forest: effects of recent fire frequency and fragment size	Jennifer	Possley
1:20	1:40 <i>Amorpha herbacea</i> var. <i>crenulata</i> seedling recruitment: Can fire management help?	Kristie	Wendelberger
1:40	2:00 Seeing the forest in three dimensions using airborne LIDAR	Patricia	Houle
2:00	2:20 Ecological models for pine rocklands and other south Florida biophysical settings developed through LANDFIRE	Keith	Fisher
2:20	2:40 Panel Discussion		
2:40	3:00 BREAK (refreshments provided)		
3:00	3:20 Conservation of the Brown-headed Nuthatch on Grand Bahama Island	Gary	Slater
3:20	3:40 Plants of Abaco National Park	Ethan	Freid
3:40	4:00 Bahamas prescribed fire training and demonstration project	Chris	Bergh
4:00	4:20 Abaco fire ecology study	Joe	O'Brien
4:20	4:40 Panel Discussion		
4:40	5:00 Closing Remarks	Chris	Bergh
5:00	6:00 Poster Set Up/Side Meetings		
6:00	8:00 Poster Session and Social Heavy appetizers and non alcoholic beverages will be served free of charge and a cash bar will be available.		
	Posters		
	Direct and indirect effects of fire on Bahamian pineyard ecology	Joe	O'Brien
	Analysis of performing controlled burns in the wildland-urban interface of Miami-Dade County	Robin	Grey-Urguelles
	Lepidoptera host plant monitoring of <i>Zamia pumila</i> , <i>Croton Linearis</i> and nectar sources in Everglades National Park, FL, USA	Hillary	Cooley
	The effects of prescribed fire on understory plant assemblages in Florida Keys pine forests	Susana	Stoffella
	Stand structure and spatial relationships in south Florida slash pine forests	Nilesh	Timlsina
	The 2006 Wildlife Habitat Incentives Program	Erin	Myers
